Leetcode

GeeksforGeeks

TECHNICAL SKILLS:

- **Languages:** Java, C, Python, JavaScript, TypeScript, HTML. **[Databases:** MySQL, MongoDB, Firebase]
- **Frameworks/Libraries:** React, Node.js, Next.js, Express.js, Django, Tailwind CSS, NumPy, Pandas, TensorFlow, LangChain, LlamaIndex, Hugging Face, Streamlit, Gradio.
- **AI/ML & APIs:** OpenAI SDK, Gemini API, Groq API, REST APIs, LLMs, RAG.
- **Developer Tools:** Git, GitHub, Docker, Kubernetes, Jupyter, GCP.
- **Operating Systems:** Windows, Kali Linux, Git Bash, PowerShell.

INTERNSHIPS:

- **IBM Skillbuild Virtual Internship** **Dec 2025 - Jan 2026**
AI & Cloud Tranee
Developed hands-on experience with **IBM Cloud**, **IBM watsonx**, **IBM Granite**, and **watsonx Orchestrate**. Worked on Generative AI, foundation models, and AI agent workflows through practical modules and projects.
- **EXCELR** **July 2025 - Aug 2025**
Generative AI Internship
Developed practical experience in Generative AI by building and fine-tuning AI models for text and image generation. Worked with prompt engineering, LLMs, RAG, LangChain, and AI API integration to develop real-world AI applications.
- **Techshaksham (AICTE) initiative by MICROSOFT & SAP** **Jan 2025 - Feb 2025**
ML Intern
Worked on “**SMS Spam Detection using NLP**” as part of the TechSaksham AI initiative by Microsoft and SAP. Applied Natural Language Processing techniques to classify SMS messages as spam or legitimate under the guidance of multiple mentors.

PROJECTS:

- **ElderGuard AI** [\[Link\]](#) **Jan 2026 - Present**
Developed an AI-powered elder-care monitoring platform designed to support safety monitoring while maintaining user privacy. Leveraged real-time data, AI/LLMs, computer vision, and microservices architecture to bridge the gap between independent living and family oversight.
TECH STACK: React 18, Vite, TypeScript, Tailwind CSS, Microservices Architecture, Node.js, Python, AI/LLMs, Computer Vision, Firebase.
- **FocusBuddy AI** [\[Link\]](#) **July 2026- Aug 2026**
Built a context-aware voice productivity assistant with proactive scheduling, focus sessions, deadline tracking, natural-language interaction, AI-powered coding guidance, distraction recovery, and adaptive task planning for personalized productivity.
TECH STACK: Python, PySide6, SQLite, Groq API, Gemini API, OpenRouter, Whisper, TTS.
- **MindSpace** [\[Link\]](#) **Mar 2026 - Apr 2026**
Developed an AI mental health companion featuring real-time mood detection, proactive crisis safety nets, and personalised relaxation strategies. Integrated Groq's low-latency LPU engine and LLaMA-3.3-70B to deliver highly empathetic, context-aware conversational support via a responsive UI.
TECH STACK: Python, Streamlit, Groq API (LLaMA-3.3-70 B), SQLite, OAuth, Hugging Face Spaces (Deployment)
- **AI Interview Coach** [\[Link\]](#) **Dec 2025 - Jan 2026**
Built an AI-powered interview preparation tool that conducts mock interviews, generates role-specific questions, and provides intelligent feedback using IBM foundation models.
TECH STACK: Python, IBM watsonx, IBM Granite, LLMs, APIs, NLP.

CERTIFICATIONS:

- | | | | |
|---|-----------|---|----------|
| • The Joy of Computing using Python, IIT Ropar
NPTEL | Apr 2026 | • Artificial Intelligence & Cloud Computing
IBM Skillbuild | May 2026 |
| • Certified Machine Learning I
Columbia University | Dec 2025 | • Career Essential AI Generative AI
Microsoft and LinkedIn Learning | Mar 2025 |
| • MERN Essentional Training
Linkedin Learning | Jan 2025 | • Full stack JavaScript Development:
MongoDB, Node, and React
Linkedin Learning | Feb 2025 |
| • React Hooks Crash Course
GreatStack | July 2025 | • MongoDB Developer's Toolkit
GeeksForGeeks | Jan 2025 |

EDUCATION :

- | | |
|---|---|
| • Maulana Azad Kalam Abul University of Technology (SVIST)
2023 - 2027 Pursuing Btech in CSE AI & ML | • St. Thomas Boy’s School, Khiderpore
2011 - 2023
10th C.G.P.A - 7.5 (2021) 12th C.G.P.A - 5.6
(2023 - Computer Science) |
|---|---|

HACKATHONS & AWARDS:

- | | |
|--|------------|
| • INNOVENTION 2026 (TECHFEST) | April 2026 |
| Secured 2nd place at the college techfest (INNOVENTION) by leading the ElderGuard AI project, recognised by judges for innovation, real-world impact, and its approach to predictive healthcare solutions. | |
| • SMART INDIA HACKATHON | Sept 2024 |
| Presented an AI/ML-based project idea for predicting prices of agri-horticultural commodities such as pulses and vegetables, securing 1st Runner-Up in the internal hackathon. | |
| • NASA SPACE APPS CHALLENGE | Oct 2024 |
| Won the NSAC 2024 36-hour hackathon from Durgapur with the project “Symphony of the Stars: Harmonizing the James Webb Space Telescope in Music and Images.” Our team, “Super Coders” was selected among 940 projects from 9,900 submissions as a Global Nominee. | |
